911 Decal Installation and Maintenance

Decal Installation:

Prepare for decal installation by ensuring surface area on vehicle is clean and dry and free from any dirt, dust, or loose paint.

When you are ready to install the decal, please follow the steps below:

1. Position the decal in the area where you would like to place the image on the ambulance vehicle.
2. Use strips of masking tape along the top of the decal to hold in place.
3. Lift up the decal sheet and wipe down the area on the vehicle with a dry, lint-free cloth.
4. Peel the liner back from the decal and begin smoothing the decal in place from the top center, using care not to stretch the decal.
5. Use a squeegee or similar applicator in a pushing motion to apply the decal to the vehicle. Do not use a pulling motion when apply the decal.
6. Use moderate pressure when passing over the decal the first time and then use heavy pressure when making a second pass over the decal.
7. Remove the premask from the top of the decal.
8. Once again, use the squeegee or similar applicator over the top of the decal in a pushing motion.

Decal Maintenance

In order to maintain the quality and use of the 911 decals, please follow the below recommendations for maintenance.

Wash Regularly:

- Wash whenever the vehicle appears dirty. Contaminants allowed to remain on the graphic may be more difficult to remove during cleaning.
- Rinse off as much dirt and grit as possible with a spray of water.
- Use a wet, non-abrasive detergent and a soft, clean cloth or sponge.
- Rinse thoroughly with clean water. To reduce water spotting, immediately use a silicone squeegee to remove water and finish with a clean microfiber cloth.
